National Chiropractic Guidelines

To Whom it may concern,

It appears that these draft guidelines have been done in too hasty a fashion for all Chiropractors to respond with suggestions in time.

Could there please be an extension of time so that all concerns from registrants in NSW can be 'heard'?

Was the NSW Board consulted apart from a preliminary request for inclusions?

It appears that these guidelines are very restrictive .

Why can't we use the cross - professional code of conduct which has appeared to have been effective to date.

I understand other National Boards have left their professions open to regulation under the terms of the cross professional code of conduct which are fair and general.
