National Guidelines

t

Chris Hart o natboards

Dear Sirs,

About a month ago, I responded to some Codes of Practice developed by the Victorian Chiropractors Registration Board, particularly in relation to x-ray limitations and treating children, This letter is attached, and you will note that it deals with a few issues now formally raised by my society.

Our practice technique organization, Gonstead Chiropractic Society, has responded to a set of National guidelines, where we take issue with a number of ill-informed recommendations that restrict the scope of practice and may lead to patient suffering.

I would like to think that the matter will be re-opened to modify the guidelines, However, like others in GCS, if this does not occur, I will be fully supporting any action against your body and individual members.

Regards,

Chris Hart DC (USA) FGCSS Vic Chiro Board Fax_Feb10.pdf National Guidelines GCS submission6.4.10.pdf
