National Guidelines Disapproval

Nicholas Armitage to natboards 09/04/2010 12:58 PM

Dear Sir/Madam,

I'm writing to express my deep concern with regards the National Guidelines for Chiropractic Practice in Australia. These guidelines are overly and unnecessarily restrictive and completely out-of-touch with the needs of the profession. The guidelines give little opportunity for a Chiropractor to practice as a professional and as he/she sees fit depending on the needs of each patient presenting for care.

In summary, I strongly disapprove with the overly restrictive National Guidelines and will join any effort to oppose passing of said document.

Kind regards,
Nicholas Armitage

Chiropractic is natural healthcare. A hands-on approach using the body's inbuilt self healing ability, helping to create balance and wellbeing.
