Dear Sir/Madame,

I am writing with concern over current Draft Code of Professional Practice for Chiropractors.

I have read and re-read the document after reading submissions by Drs Peter Cowie, Mark Postles and Michael McKibbin.

As these colleagues have pointed out so well I believe there are many issues of concern within the draft. Although I do not have the time to make a complete submission I would like it to be noted that I fully support the submissions made by the previously mentioned chiropractors.

I hope these comments will be given due consideration in the final document.

Regards,

Candice Robertson
