

Chiropractic Board of Australia

REGISTRATION STANDARD: CONTINUING PROFESSIONAL DEVELOPMENT

1 December 2019

REGISTRATION STANDARD: CONTINUING PROFESSIONAL DEVELOPMENT

Summary

This registration standard sets out the Chiropractic Board of Australia's (the Board) minimum requirements for continuing professional development (CPD) for chiropractors.

Does this standard apply to me?

This standard applies to all registered chiropractors, except those with student or non-practising registration.

What must I do?

To meet this standard, you must:

1. complete at least 20 hours of CPD each year that:
 - a. seeks to improve patient health outcomes, safety and experiences
 - b. draws on the best available evidence, including well-established and accepted knowledge that is supported by research where possible, to inform good practice and decision-making
 - c. contributes directly to maintaining and improving your competence (performance and behaviour) and keeping you up to date in your chosen scope and setting of practice, and
 - d. builds on your existing knowledge
2. maintain a first aid qualification at least equivalent to HLTAID001 Provide Cardiopulmonary Resuscitation (CPR), and
3. maintain a portfolio that documents your learning goals and records all your planned CPD activities and your reflection on how these CPD activities are expected to improve or have improved your practice.

The Board's *Guidelines: Continuing professional development* and other supporting documents provide further information about CPD requirements.

Pro rata requirements

If you register part-way through a registration period you must complete five hours of CPD for every three months of registration remaining in the registration period.

What does not count as CPD?

You may not count education, training, mentoring or supervision required by the Board, a Professional Standards Panel or a tribunal as part of your CPD. e.g. education required by a condition or undertaking

Are there exemptions to this standard?

The Board may grant a full or partial exemption or variation from this standard in exceptional circumstances.

The Board's *Guidelines: Continuing professional development* provide further guidance.

What does this mean for me?

When you apply for registration

You don't need to meet this standard when you apply for registration in Australia for the first time as a chiropractor.

At renewal of registration

When you apply to renew your registration, you must declare whether you have complied with this standard.

During the registration period

Your compliance with this standard may be audited from time to time. It may also be checked if the Board receives a notification about you.

Evidence

You must maintain records of your CPD activity for five years.

If you are audited you may be required to provide your CPD portfolio, or any other information the Board requires.

REGISTRATION STANDARD: CONTINUING PROFESSIONAL DEVELOPMENT

What happens if I don't meet this standard?

The Health Practitioner Regulation National Law, as in force in each state and territory (the National Law) establishes possible consequences if you don't meet this standard, including that:

- the Board can impose a condition or conditions on your registration, or can refuse an application for registration or renewal of registration, if you do not meet a requirement in an approved registration standard for the profession (sections 82, 83 and 112 of the National Law)
- a failure to undertake the CPD required by this standard is not an offence, but may be behaviour for which health, conduct or performance action may be taken by the Board (section 128 of the National Law), and
- registration standards, codes or guidelines can be used in disciplinary proceedings against you as evidence of what constitutes appropriate practice or conduct for chiropractors (section 41 of the National Law).

More information

The Boards *Guidelines: Continuing professional development* provides more information about how to meet this standard. You are expected to understand and apply these guidelines together with this standard.

Authority

This standard was approved by the Ministerial Council on 30 June 2019.

Registration standards are developed under section 38 of the National Law and are subject to wide-ranging consultation.

Definitions

Continuing professional development is the means by which members of the profession maintain, improve and broaden their knowledge, expertise and competence, and develop the personal and professional qualities required throughout their professional lives.

CPD portfolio is a collection of information about your CPD plans/goals, the CPD activities you have done, evidence of completing CPD activities and your reflection on their effect on your practice. It can be hardcopy and/or documents or a combination.

Practice means any role, whether remunerated or not, in which the individual uses their skills and knowledge as a health practitioner in their profession. Practice in this context is not restricted to the provision of direct clinical care. It also includes using professional knowledge (working) in a direct non-clinical relationship with clients, working in management, administration, education, research, advisory, regulatory or policy development roles, and any other roles that impact on the safe, effective delivery of services in the profession.

Reflection means thinking about what you do and/or what you have done in order to improve your learning and practise.

Scope of practice means the professional role and services that an individual health practitioner is educated and competent to perform.

Review

This standard will be reviewed from time to time as required. This will generally be at least every five years.

Last reviewed: 30 June 2019.

This standard replaces the previously published registration standard dated 1 December 2015.
